WORK EXPERIENCE

CONSULTANT

09/2023 to CURRENT

kurinchilion - Toronto, Ontario, Canada

- Reviewed code, debugged problems, and corrected issues.
- Analyzed existing software implementations to identify areas requiring improvement.
- Developed functional databases, applications and servers to support websites on back-end
- Worked with back-end developers to design APIs.

PROJECTS

E-Commerce Website For Farmers

- Empowering Farmers Directly: Our E-commerce platform for farmers connects them directly with consumers, eliminating middlemen and ensuring fair prices for their produce.
- Featuring a wide range of agricultural products, the platform enables farmers to showcase the diversity of their crops, promoting sustainable and local agriculture.

aceClassRoom - <https://github.com/LfJoel/laravelsms>

- AceClassRoom is a highly interactive web based education management system that provides a complete solution for a modern day institutional administration and management.
- Recognizing the need for a solution that bridges the gap between the institution, Parents and Students, we have combined the evolution of software and the internet for the purpose of improving education management by fostering an environment for any time access, monitoring, communication and secure data exchange
